SUBJECT: Inventory of Installed Equipment Containing PCBs

Per your request, the Operations Division has completed an inventory of **all installed and operating equipment** containing PCBs. Also, provided by Engineering as part of this inventory is an **estimated removal date for this equipment**. While specific removal dates may change, the number of stations removed should not since these removals are directly related to the 26 KV conversion program, an ongoing capital improvement project.

Please contact Paul Weintraub, PAX 3737, if you have any questions or comments on this inventory.
